

The Bantha

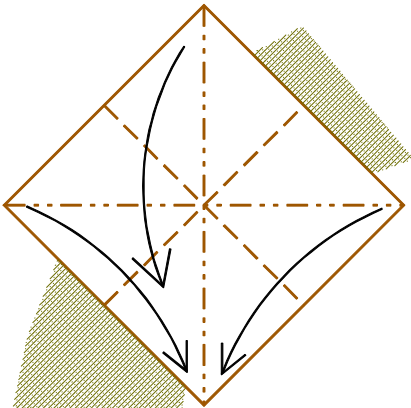

Banths roam the deserts and the Jundland Wastes in herds of 15 or more.

Their thick fur coats, long tails, and curved horns enable them to survive the hostile climates and vicious predators of Tatooine.

The Sand People have domesticated the bantha and use them primarily for transportation.

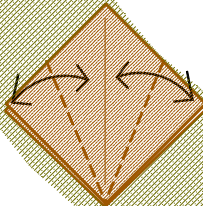

When on raiding parties they ride them single file to hide their numbers.

1.

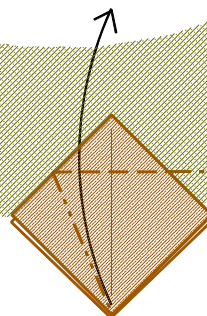

Start with a bird base, colored side down. (see page 7)

2.

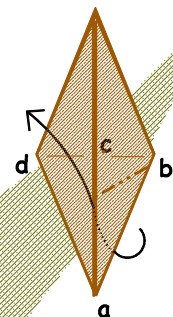

Valley fold and unfold.

3.

Squash Fold, Repeat behind.

4.
